MSc Handbook

The University of York and the Department of Psychology have a number of regulations and procedures that masters students need to follow. This handbook is intended to summarise the full range of these, or to point you to the places where authoritative statements can be found. Other important sources of information are the individual course overviews (which describe the overall organisation of your course and the different modules it comprises) and the VLE which contains information about the specific modules you are taking and is updated by the staff teaching the course.

If you can't find some information that you think should be in the handbook, please contact Louise Ward. Please also let us know if any of the information is unclear, contradictory, ungrammatical or just wrong!

Please note that the "MSc Handbook" contains information on all our taught postgraduate courses including the MRes Psychology programme.

Contents

- MSc Handbook - Welcome
- MSc Handbook - Your Department
- MSc Handbook - Your Course
- MSc Handbook - Teaching and Learning
- MSc Handbook - Study Skills and Support
