Welcome to the research computing training and support pages - a place for sharing information on courses, events and other sources of support for research or high performance computing.

If you wish to advertise a course or publicise other news, or have spare places on a course which could be offered to research staff or students in other departments, or just know of a resource that might be useful to others, please enter a Blog Post or email details to Andrew Smith or Lorraine Moor.

### Support

**Research Computing Support Centre**

The Research Computing Support Centre offers support on advanced computing topics for research postgraduates and staff. This operates on an appointments system. For full details, please see:

- Research Computing Support Centre

### Training resources

**Where to look for training**

- University of York training resources
- External training resources
- Online training resources

### Computing facilities

**What’s available?**

- Research Computing Facilities
- Advanced Research Computing at York
Research Computing Training and Support

Blog Posts

- N8 CIR Trainers' Meet up at University of York created by Lorraine Moor 18, Jun, 2019 Research Computing Training and Support

- Summer Programming /Python courses now available created by Lorraine Moor 17, Apr, 2019 Research Computing Training and Support

- Learn to code! created by Lorraine Moor 22, Jan, 2019 Research Computing Training and Support

- Additional 'Introduction to Viking' session created by Lorraine Moor 15, Jan, 2019 Research Computing Training and Support

Other types of support

- R User Group. Every third Friday of the month, researchers from across the University will present on applied statistics in R, based on their own research as well as introducing tools that helped them make better use of this software. For more details, contact Tom Patton: thomas.patton@york.ac.uk.

Further information

Contacts

- For advice on any aspect of high performance or research computing, please contact the Head of Technical Research Support, Andrew Smith
- For general IT enquiries, please contact the IT Support Office

Qualitative data
analysis tools
survey:
IT Services
carried out a survey
during 2016 to
discover the extent
of use of qualitative
data analysis tools
across the
University. We will
use the data
collected to improve
our support for
these tools by
providing training,
user support, and
possibly more cost-
effective licensing.

Reports from
previous surveys:

- Report on
  survey on the
  provision of
  training and
  support for
  research
  computing
  software
  (May 2014)

- Report on
  survey on
  research
  computing
  infrastructure
  (December
  2014)

If you have any suggestions for information to add to these pages, please contact Lorraine Moor, Administration Co-ordinator, IT Services.
